Whereas, it has also been pointed out by the Director, Agriculture, Kashmir that the period decided by the Directors at their own level is beyond the scope of law and needs a review ; and

Whereas, the matter has been examined in the Administrative Department in terms of Government Order No. 337-Agri. of 2012 dated 13-12-2012/Leave Rules in vogue at the relevant point of time, it has been felt that the settlement of overstayed period ordered by the Director, Agriculture, Kashmir in the above cases needs a review as these have not been settled in accordance with rules/policy as contained in Government Order No. 337-Agri. of 2012 dated 13-12-2012.

Now, therefore, in terms of the Leave Rules applicable at the relevant point of time read with Government Order No. 337-Agri. of 2012 dated 13-12-2012 and in supersession/partial modification of orders issued from time to time on the subject by the Director, Agriculture, Kashmir as referred hereinabove, sanction is hereby accorded to the settlement of overstay period by the Director, Agriculture, Kashmir of the above mentioned officers as Extraordinary leave without allowances, for the periods indicated against each. The status of the cases settled by the Director, Agriculture, Kashmir in accordance with the rules/policy shall, however, not be disturbed. Any other case settled by the Director, in violation of the rules shall immediately be referred to the Administrative Department for review/settlement.

Further, it is ordered that the recoveries against all the officers, who have drawn any pay while pursuing higher studies to which they were not entitled to shall be recovered under rules.

This issues with the concurrence of the Director (Finance), Agriculture Production Department.

By order of the Government of Jammu and Kashmir.

## **ROAD SAFETY POLICY**

### *Preamble :*

The primary mode of transport in J&K is road transport. The mix of vehicles in the road transport system in J&K is diverse. Road Transport has been found to be a major contributor of accidents, fatalities and injuries. With the ever increasing urbanization and migration to city and towns has put enormous pressure even on the city roads. On the other hand, hilly districts of the State, which form most of the area of the State of J&K, have witnessed major road accidents due to specific features of hilly terrain.

The efficient, effective and planned transport system is thus not only a desire to be implemented but rather a commitment to manage Road Safety challenges. This requires expansion of capacities, better road engineering, modernization of transportation modes, development of urban transportation, development of trained and skilled human resources and more importantly to organize and introduce efficient and effective traffic management system.

### *Vision and objectives :*

Government of J&K is committed to take steps to save the precious lives which are lost in the road accidents and to take comprehensive measures covering engineering, architecture, enforcement, education, emergency care and use of advanced technology to stop and reverse increasing trend of road accidents, number of deaths and injuries. The objective of the policy is to provide safe road and safe passage to users for both personal as well as commercial transport modes. The intent is to reduce the fatalities and injuries by 20% by the year 2020 considering 2016 as the base year.

1. *Means to achieve objectives.*— To realize the vision and objective of this policy, the Government commits itself to take following measures :—

—

#### **(1) Safe Roads and Mobility.—**

- Black spots have been found to be the main cause of the road accidents. The black spots thus shall be identified as per

the protocol i. e. annual time table to be drawn up by R&B Department for necessary rectification. Moreover, it is proposed that in order to implement Road Safety initiatives, new developments of roads will be put to safety audit system and the design of roads will also follow a protocol to avoid any future black spots in the network. Government will create a permanent task force for this purpose.

- All the existing and new roads shall be equipped with standard traffic control features like Signs, Marking, Crash Barriers, Delineators **and natural plantation barrier alongside the road etc.** The State does not have any road declared as State Highway. Initiatives shall be taken to upgrade all major roads in the State and classify important roads as State Highways under a standard protocol.
- The encroachment of roads, pathways and pedestrian paths has become one of the reasons for road accidents and congestion. In order to provide safer roads, the removal of encroachment of roads and pathways shall be strictly enforced. Police, Municipal Corporations and Municipal Committees shall be made accountable to ensure encroachments on roads, pathways and pedestrian paths are removed. **To ensure free flow of traffic on all roads, the provisions of Ribbon Development Act shall be strictly implemented.**
- In order to provide safer roads and mobility, the Government after due process and consultation with stake holders, shall declare certain business areas as traffic free areas. The Government will encourage the general public to walk shorter distances.
- In order to decrease the vehicle population on roads, the Government will adopt innovative features and modernize the

Public Transport System. In order to achieve the objective, the Government will increase the operations of J&K State Road Transport Corporation and shall also encourage private bus owners to introduce smart buses to reduce private transport as far as possible.

- Safer roads and free mobility cannot be achieved unless sufficient parking spaces are made available. Development Authorities are already entrusted with responsibility to create more parking spaces but it be endeavour of the Government to encourage non-governmental institutions/individuals to develop private lands for parking purpose. Building by-laws shall be amended to make it happen and to provide incentives to encourage this. In addition to this Government will encourage setting up of modern Bus Terminals on a Public Private Partnership (PPP).
- No new commercial vehicle shall be allowed to be registered and introduced in the State without installing speed limit device (Speed Governor) as is now required under Motor Vehicle Rules.

**(2) Institutional Framework and Funding.—**

- In addition to this, the Government vide SRO-52 dated 01-02-2012 has constituted a High Level State Road Safety Council headed by Chief Secretary. The Council is tasked with responsibility to advise the Government for steps to be taken for achieving the objectives of safe roads.
- Government shall setup legal/institutional framework for road safety through appropriate legislation. The legislation will also include setting up of a dedicated Road Safety Fund for undertaking various activities for improving the road safety in the State to bring down the incidents of road accidents and resultant death, injuries and the consequent social and economic loss to the State. The State Safety Council will also be given legal cover under this legislation.

- Funding of Road Safety measures shall be achieved through dedicated funding for Road Safety initiative. The Government shall raise such fund from the share of Taxes, Fines, Cess, levied under Motor Vehicle Act.
- Parliamentarian/legislators shall be requested to use some portion of constituency development fund for undertaking road safety works.
- The business/industrialists and others from the public shall be encouraged to contribute and donate towards the Road Safety Fund.

### 3. **Emergency Medical Services for Road Accidents.—**

- In order to reduce fatalities and deaths, effective post-crash response shall be a great help, as such creating of network of Trauma Healthcare facilities on National Highways and State Highways shall be the endeavour of the Government.
- In order to increase post-crash response, Trauma Healthcare Centers shall be established at accident prone stretches of the roads with critical care ambulances and basic life support devices. The Government will strengthen the Hospitals/ Primary Health Centers nearer to roads to cater the requirements of post-crash responses.
- The District Administration shall be sensitized to establish first response care through community living on the road sides and trainable bodied persons living along National Highways/ State Highways in the art of Trauma Care.
- The principle of “bring them alive”, “Keeping them alive” till they reach Hospital/Trauma Centre can be achieved, if critical ambulances reach the accident spot(s) without any loss of time. Hence, it shall be the endeavour of the Government to provide clear route path for ambulances or other alternate transport through a legal mechanism. In this regard, the Home

Department shall formulate standards and protocols for providing obstruction free path to critical trauma patient carrier. Police, Home Guards, School Teachers and local health workers shall be made part of this legal mechanism to provide obstruction free road to trauma patient carrier.

- To improve communication system available with police and other emergency services as a means to reduce response time and to assist in planning and implementation of Traffic Aid Post Scheme.
- To train police, fire and other emergency service personnel such as those on ambulances and paramedics involved in basic first aid for road crash victims.
- To involve volunteers of organizations like Civil Defense Organization, Red Cross, develop local and regional trauma plans based on study of post-accident assistance and consequences for road traffic accident casualties.

#### **4. Establishment of Safe Transport Infrastructure.—**

- In order to improve Road Safety, it shall be the endeavour of the Government to provide safe transportation infrastructure, systematic improvement of safety for impaired/elderly and children shall be ensured during the mobility.
- Operation of smart transportation modes with GPS/GIS Vehicle Tracking System and CCTVs by Public/Private Transporters shall be encouraged.
- In order to provide safe transportation infrastructure, Advanced Weather Information Centers shall be established at different places on National Highways and State Highways.
- The Government will ensure that Municipal Corporation and Municipalities establish, install, monitor and maintain traffic signals at all crossings to ensure safe and pleasant driving.

- The Government will take steps to ensure that safety aspects are built in at the state of design, manufacture, usage operation and maintenance of all types of vehicles in line with prevailing standards in order to minimize adverse safety and environment affects of vehicle operation on road users and infrastructure.
- The behavior of a driver is the major cause of traffic/road accidents, yet investment is concentrated on road facilities under the present circumstances. It is necessary to spend some road facility budget on driver education and training to improve the competence and capability of driver. The Government shall in this regard open training/education centers at different places of State and shall also strengthen the driving licensing system and policy to ensure that driving license holder has basic knowledge of the road safety measures.

##### 5. **Enforcement.—**

- Violation of traffic laws and regulations has been found as one of the reasons for road accidents. In order to reduce rather eliminate violation of traffic laws/regulations ; the Government shall take appropriate measures to improve and enhance the capacity of Enforcement Agencies. In this regard, the Law Enforcement Agencies shall be equipped with advanced devices to detect over speeding, red light jumping, drunken driving, illegal movement obstruction and helmet/seat belt violation.
- The Law Enforcement Agencies shall be sensitized to ensure checking of fitness of the vehicles as per the protocol/time schedule, detection of unauthorized driving and driving by minors. The Government has already introduced

computerization of the Motor Vehicles Department. In order to analyze accidents data, centralized, computerized data management system shall be established having the handshake with National Data Centre. The Law Enforcement Agencies will ensure that periodic Eye/Health Checkup of drivers is conducted from time to time.

- To take appropriate measures to improve the capacity of Motor Vehicles Department and the Traffic Police Department.
- To take appropriate steps to ensure that the enforcement authorities are adequately strengthened, upgraded, manned, trained, and equipped and empowered to carry out their functions by ensuring safe road use and orderly traffic flow including the traffic situation, land use and road network planning etc.
- To form flying squads and establish check points at vital points to check the menace of overloading both passenger and goods. The penalties imposed will include suspension/cancellation of Route Permits/Driving License and Agents License besides fine as envisaged under Motor Vehicle Act and denial of further Permits/Licenses/Agent License to the violators.
- No sale and supply of liquor shall be allowed alongside the National/State Highway.

**6. Raising awareness about Road Safety, Education and Training.—**

- Raising awareness among key decision-makers, stakeholders and NGOs to facilitate them for planning and promoting road safety.

- Raising awareness about the gravity of road safety issues amongst all citizens of the State and particularly the young, elderly and the infirm.
- To enlighten various road user groups with respect to their roles and responsibilities.
- Encourage inclusion of road safety awareness as part of educational curriculum for students of various age groups.
- To develop and implement road safety publicity campaigns by using the creative resources of both Government and professional agencies and NGOs for various target groups as per their respective requirements.
- Also planning and implementing community based road safety programmes to engage local as well as non-governmental partners in the areas of road traffic safety that most affect their daily lives.
- Planning, designing and implementing training programmes for various specific groups involved in road safety management tasks e. g. Traffic Personnel, Highway Engineers, School Teachers, Town Planners, **NGOs/SHGs**.
- To establish Road Safety Clubs in Schools/Colleges/ Universities.
- It shall be the endeavour of the State Government to celebrate Road Safety Traffic Week in the month of January and World Road Safety Victims day on 3rd Sunday in November every year.

**7. HRD, Research and Intelligent Information System for Road Safety.—**

- Improve the reporting of important details at the scene of accident shortly after the occurrence of the accident.

- Improve the storage and accessibility of all data relevant to an accident such as vehicles involved, road environment etc.
- To set up a system for identifying new areas for research with a special attention to safety of the vulnerable road users.

## ORDER

This petition under section 77 of ESI Act, 1948 has been filed on behalf of FIL Industries Ltd. against the respondents stating as under :—

1. That Respondent No.1, ESI Corporation through its Assistant Director, Jammu branch had issued a notice for payment of Rs. 2,29,377/- (Rupees two lakh, twenty nine thousand three hundred and seventy seven) as ESI contribution.
2. That the petitioner is having a company which is registered under Company's Act at Bari Brahmana, Jammu, where pesticides are manufactured.
3. That the petitioner company does not own the liability raised under the notice in question.
4. That the company has on its roll 44 workers only and the company deposits ESI contributions on their behalf on regular basis.
5. That besides the labour directly engaged by the company, some casual workers are engaged on some occasions who are not regular employees and they have no contract of service with the company, because the company cannot afford to employ full time employees for menial jobs.
6. That these casual workers are paid a small amount as wages and they cannot be covered under the ESI Act.
7. That the number of labour varies from time to time, month to month and year to year as per the requirement of the company.
8. That the petitioner company is not the employer nor ever was an employer of any labour engaged by the private respondents

nor any privity of contract ever existed between the petitioner company and private respondents.

9. That the financial arrangements with the private respondents is such that these include the total amount payable to the private respondents under any law including ESI Act.
10. That it is the private respondent who have to look to the welfare of the labour engaged by them.
11. That the labour engaged by private respondents are not on permanent basis.
12. That the persons who come through private agency is for a certain day and next day the said person may not come and somebody else may work in his place.
13. That private persons do not engage any skilled worker as they are not needed by the petitioner company.
14. That the methodology of payment is also relatable to the number of containers, packed by them in a day and it has nothing to do with the time of worker.
15. That the demand has been raised by Respondent No.1 on the basis of one kind of inspection conducted sometime back and after the said inspection several correspondence came to existence between the petitioner company and Respondent No.1.
16. That the Respondent No.1, in contravention of the law and utter disregard of its jurisdiction, has raised the demand to the prejudice and to the detriment of the petitioner company.
17. That the inspection conducted by Respondent No.1 was also in violation of rules and natural justice and the material collected

during the course of action was also wrong because the person from whom the enquiries were made were engaged by the private persons and who had nothing to do with the petitioner company and all this was done in absence of the petitioner company.

18. That the petitioner company, as such, disputes the inspection of ESI Inspector and its report submitted to its higher authorities.
19. That the action taken on the basis of the said report is not correct, which is disputed by the petitioner company.
20. That the Respondent No. 1 has also included some labourers, who were involved in loading and unloading of the vehicles, in the list of permanent workers of petitioner company.
21. That the Respondent No.1 has also included some security persons in the list of the workers of the company, though the security persons are supplied by the private company, and such persons continue to change as per the need of the petitioner company.
22. That the petitioner company has prayed for declaring the demand notice as illegal and against the provisions of law, and as such requires to be quashed.

The Respondent No.1 has submitted its objections to the petition of the petitioner company as under :—

- (1) That as per ESI Act there are two types of employers, principal employer and the immediate employer and as per petition, the private respondents who are directly engaged by the petitioner company engage other labourers for the work of the company and as per section 40 of ESI Act, the principal employer should pay in respect of every employee, whether directly engaged by

him or through an immediate employer, both the employer's contribution and the employee's contribution.

- (2) That in reply to sub-para 'b' of para 3 of the petition it is submitted that as per ESI Act, the principal employer should pay in respect of every employer, whether directly employed by him or through immediate employer i. e. the employer's contribution and the employee's contribution.
- (3) That the private respondents are contractors, who engage labourers for the work of the company and pay them wages.
- (4) That as per section 41 of ESI Act, the principal employer, who has contributed in respect of an employee employed by him or through an immediate employer shall be entitled to recover the amount of contribution, so paid, from the immediate employer either by deduction from any amount payable to him by the principal employer under the contract or as a debt payable by the immediate employer and as such all these labourer engaged by the private respondents come within the definition of employee as in section 2(9) of ESI Act and are therefore, employees of petitioner company.
- (5) That the labourers engaged by the private respondents comes within the definition of employees and are therefore employees of the petitioner company.
- (6) That the petitioner company is covered under ESI Act with ESI Code 19/0387.
- (7) That three inspectors namely Shri Ramphal, Shri Mohan Singh and Shri Subash Chander along with Shri Sindh Ram, Assistant Director and Shri S. Ghosh, Joint Director visited the petitioner company on 10-11-2005 and found 54 employees coverable

under ESI Act although they were not covered by the petitioner company.

- (8) That the inspection note which was completed by the ESI Corporation was acknowledged by the petitioner company.
- (9) That the petitioner company appeared before the Assistant Director of the corporation and sought time to file actual position but finally stated that the entire statement prepared by the corporation is based on false grounds, but the corporation rejected the plea of petitioner company.
- (10) That the respondent No. 1 has stated that the petitioner company is liable to pay the amount of demand notice under the provisions of ESI Act and finally prayed for dismissal of the petition filed by the petitioner company.
- (11) That other respondents were set *ex parte* due to their continuous absence from the proceeding of the case. Some respondents filed application for setting aside *ex parte* proceedings against them.
- (12) That these respondents have not given any clear submission regarding the employment of labours with petitioner company, though they have accepted that the payment of wages of labourers were made to these respondents/contractors by the petitioner company directly because these labourers were supplied to the petitioner company from time to time as per need by these contractors.

The petitioners were directed to adduce evidence in respect of their contentions, however the petitioner in the first instance was directed to adduce the evidence.

The petitioner filed written statements of two witnesses namely Shri M. C. Sharma and Shri Sunil Varma in the shape of affidavits and after that the witnesses were directed to appear for cross-examination.

The witnesses appeared as per direction of the court but there was nobody to cross-examine the witnesses even though so many opportunities were given to the Respondent No. 1 for this purpose. The respondent also did not choose to produce any evidence in rebuttal and finally the evidence was closed and as such the statement of witnesses of petitioner company remained unrebutted.

From the perusal of the petition, its objections, the record available on case file and the evidence of the petitioner the following points emerged in the case :—

- I. That the petitioner company had engaged 44 workers as regular employees by the company.
- II. That the petitioner company used to engage extra labour as per need from time to time.
- III. That all the extra labourers were engaged through contractors and the payment of wages of these labourers was made to the said contractor.
- IV. That the services of some security persons were also used by the company through contractors and their payment was also made to the said security agency.
- V. That the extra labourers engaged through contractors were not permanent but at one time a, b, c were engaged and on another time d, e, f were engaged and such practice continues throughout of the notice period. The above points are proved in terms of

record, evidence and other aspects of the case which are now discussed below :—

During the course of inspection by the respondent corporation, there were also contract labourers working for loading and unloading of vehicles and the inspection team also included these labourers in the list of permanent workers as such they have given the number of regular employees as 54 instead of 44. The Respondent No. 1 has also failed to produce those labourers/official staff before this court to verify the contentions made in the demand notice as well as in the inspection report.

The witnesses of petitioner company have stated that the petitioner company has only 44 workers and the company is contributing ESI contribution on behalf of these workers regularly. Both the witnesses have supported the contentions made in the petition of the petitioner and have further stated that some casual workers are engaged on some occasions and these workers are not regular employees and they have no contract of services with the company because the company cannot afford to employ full time employees for menial jobs. It is further stated that, these workers are casual and are paid small amount as wages and will not be covered under the Act.

The Hon'ble Supreme Court has also held that “the employer not supervising the work of the contractor's employees is not liable to cover such employees under the ESI and pay their contribution [C.E.S.C. Limited Vs. Subash Chander Bose, 1992 Lab IC 332: AIR 1992 SC 573: 1992 ILLJ 475: LLR 81(SC).]

The evidence produced by the petitioner company remained unrebutted as such there is no reason to disbelieve the petitioner, as such its evidence is treated as proved.

It was obligatory upon the Respondent No. 1 to adduce evidence in support of their contention on the basis of which they have made the demand of an amount of Rs. 2,29,377/- against the petitioner company but they have failed even to produce the concerned inspectors to verify the report upon which the demand of amount was made.

It is also the matter of record that 5 persons, as stated in the objections were given the task of inspection of the petitioner company but none of them appeared as witness before this court to verify the report submitted by them to their higher authorities. The contention made in the petition of the petitioner company that the inspection report of the respondent corporation is based on frivolous and fabricated facts seems correct and the plea of Respondent No. 1 that the petitioner company is liable to deposit Rs. 2,29,377/- as ESI contribution is not supported by any oral and documentary evidence, as such the plea of the Respondent No. 1 cannot be accepted.

It has been proved by the evidence of petitioner company that the labourers engaged through private persons are not the permanent employees of the company but are casual workers and they have no contract of service with the company and therefore they cannot be covered under ESI Act. There are only 44 workers working in the petitioner company and company is regularly contributing towards their ESI fund and as such the demand notice issued by

Respondent No. 1 for an amount of Rs. 2,29,377/- against the petitioner company is illegal and based on concocted facts. The said demand notice issued under No. JK/19/387/217 dated 21-02-2007 is hereby quashed.

The respondent corporation is restrained to claim the amount of demand notice from the petitioner company.

The file after its due completion be consigned to records. There is however, no order as to costs.
